Safe-Guard® Paste Gun	Panacur® POWERPAC
Ultra Boss® Quart	

Step 1: Remove all shelves except the bottom shelf from end cap and then hang top shelf 12" from the top of the peg board.

Step 2: Assemble header box and place on top shelf.

Step 3: Assemble vaccine proxy card box and hang directly under the top shelf (bottom of box should be 12" from bottom shelf and 14.75" from each side of the peg board) with (2 qty) vaccine box peg hooks. Insert the (14 qty) 1" peg hooks into the box using provided hole guide lines and hang (10 qty) each of the vaccine proxy cards.

Step 4: Product Shelves

(2 qty) *small*: Safe-Guard® Canine Dewormer and Safe-Guard® Goat Dewormer

(5 qty) *medium*: Panacur® POWERPAC, Implants, Panacur® Equine Dewormer, Safe-Guard® Equine Dewormer, Safe-Guard® Equi-bits® 1.25 lb

(3 qty) *large*: Safe-Guard® Pellet Dewormer 1 lb, Safe-Guard® Paste Dewormer 92 g

Bottom Shelf: Safe-Guard® Blocks, Safe-Guard® 290 g, Safe-Guard® 5 lb, Internal Parasites

Must begin from the bottom right side. Insert the Safe-Guard® Pellet Dewormer sign into **large** product merchandiser channel strip. Hold the **large** product merchandiser vertical to insert into peg holes and lay flat. Use the image above as a guide to hang the remaining product merchandisers.

Step 5: Insert channel strip graphics into the channel of the bottom shelf. From left to right: Safe-Guard® Deworming 25 lb blocks, Safe-Guard® 290 g Dewormer, Safe-Guard® 5 lb Alfalfa-Based Pellets, Safe-Guard® 10 lb Alfalfa-Based Pellets.

Step 6: Attach side panels with (4 qty) plastic screws to the top shelf.

Step 7: Load with product.
