DOUBLE BARREL VP™

INSECTICIDE EAR TAGS

Two Active Ingredients (pirimiphos methyl and lambdacyhalothrin) Provide Quick Knockdown And Control Of Horn Flies And Face Flies

- Optimum control of horn flies and face flies
- For use on beef and nonlactating dairy cattle, and calves of all ages
- Combination of two active ingredients, organophosphate and a synthetic pyrethroid, minimizes resistance and eliminates the need for ear tag rotation
- Easily applied with Allflex® tagging system
- Unique triangular shape prevents tag from breaking off at the neck

Directions For Use

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Double Barrel™ VP Insecticide Ear Tags Table

Apply To:	Target Species	Application Instructions
Beef cattle, nonlactating dairy cattle, and calves of all ages	Horn flies and face flies	All animals in the herd should be tagged. Use two tags per animal for optimum control (one in each ear). Apply when flies appear in the spring and replace as necessary. 20 tags and buttons per box.
