

SHE CAN DO IT.

OR YOU CAN TRY.

SCOURS VACCINATION CAN MEAN THE DIFFERENCE BETWEEN A GOOD DAY OF WORK – AND A COLD, HARD ONE.

That's why more producers are choosing to protect their calves from scours by vaccinating the pregnant cow or heifer with Guardian®.

According to the U.S. Department of Agriculture, scours has been attributed to 17.2 percent of annual nonpredatory calf loss in U.S. cattle operations annually.¹ If scours has affected your calves in the past, you know the real price of getting them back on their feet – time, treatment cost and heartache.

¹USDA. 2011. Cattle and Calves Nonpredator Death Loss in the United States, 2010. USDA-APHIS-VS.
